

Institute of Aesthetic Medicine & Cosmetic Surgery Pakistan (IAMCS®)

Powered by Glow-Med Pvt. Limited

Excellence in Aesthetic Education & Training

Locations: Wah Cantt | Islamabad | Lahore

Our Mission

IAMCS® is an independent board-level institute dedicated to providing high-standard education and training in the field of aesthetic medicine for healthcare professionals. The institute offers both online and in-class learning programs designed for practitioners who are active in aesthetic medicine or wish to integrate aesthetic procedures into their current medical practice.

Our mission is to expand world-class aesthetic education across Pakistan and internationally by providing gold-standard training, ethical guidance, and clinical excellence.

Our Vision & Plan

With the rapidly increasing global demand for anti-aging and aesthetic treatments, healthcare professionals now have greater opportunities to incorporate aesthetic medicine into their practices. IAMCS® aims to deliver comprehensive educational programs for practitioners serving both national and international markets.

IAMCS® provides advanced learning through training modules, hands-on workshops, congresses, events, podcasts, webinars, and clinical mentoring led by experienced experts in aesthetic medicine.

Who Can Attend

- Physicians specialized in Aesthetic Medicine
- Physicians from non-aesthetic specialties
- Medical Residents and Medical Students
- Nurse Practitioners and Registered Nurses
- Dentists
- Naturopathic Doctors
- Respiratory Therapists

Educational Pathway

Stage 1 – Certificate of Completion (CoC)

Express Path: Complete CoC1, CoC2, CoC3, CoC4. Standard Path: Complete all five CoC modules.

Stage 2 – Fellowship Pathway

Advanced certificate programs leading toward Fellowship in Aesthetic Medicine. Delivery Mode: Hybrid (Online + Onsite training).

Stage 3 – Clinical Mentoring

One-to-one clinical mentoring at faculty clinics, board-certified member clinics, or partner centers. Logbook recording begins after completing at least one CoC.

Stage 4 – Final Assignment & Assessment

Participants complete a clinical logbook and final evaluation under mentor supervision within approximately six months.
